PROJECTS

Student Zone | github.com/asdtiwari/studentZone
Developed a hands-on application using the Spring Boot framework, showcasing proficiency in performing basic CRUD operations. The integration of Thymeleaf added a distinctive touch to the application, enhancing its functionality and user experience.

Angular Crud App | asdtiwari.github.io/angularCrudOperation
Created a Single Page Application (SPA) to demonstrate efficient CRUD operations, hosted on GitHub Pages. The project highlights my skills in Angular development and frontend design.

Portfolio | asdtiwari.github.io
A comprehensive showcase of my projects and skills, demonstrating my capabilities in software development and web technologies.

LEADERSHIP

Class Representative in Medi-Caps University   Since Aug. 22, 2023
My responsibilities include reporting to the Year In-charge, Class Coordinator, and teachers, acting as a bridge between the class and the authorities.

Co-Founder of TIK2D   December 2023
During my second semester, I was ambitious to achieve something, so I organized a team where we decided to learn, prepare, and develop a project. I was a co-founder of TIK2D, but due to circumstances beyond our control, TIK2D ultimately failed.
